SYCAMORE GARDENS

7010 Sycamore Avenue

Kansas City 3-E, Missouri

The introductions of Mr. R. H. Burtner of Washington, D. C. are increasing in popularity and we are pleased to announce five new ones for introduction this year.

We are also happy to announce the introduction of four new varieties of Mrs. John M. Aldrich of Kansas City, Missouri, which we consider outstanding.

We thank you for your past patronage and we feel that a satisfied customer is our best advertising.

1951 R. H. BURTNER INTRODUCTIONS

LADY LUCK — Large very bright yellow, 5½" bloom, broad and frosty petals with ruffled edges, overlapping the sepals. Decided fragrance. Rapid increaser and long blooming season. 3½' July-August. \$5.00

MADISON — Blood red 5" blooms that attract attention, holds color in hot sun, long season of bloom and rapid increaser. Lovely for border. 2' to 2½' June-July. \$3.00

MT. POCONO — Very large red with darker eye zone of very attractive form, with gold throat, a very showy and striking background plant. 7" blooms. 4½' June-July \$5.00

POTOMAC — Large light yellow of good texture, 6" blooms, broad petals, slightly recurved. Well branched with many blooms 3' June-July \$4.00

TULSA — Princeton orange with dark maroon mid-zone, sepals flushed with maroon, broad overlapping petals. 5½" bloom. Well branched and unusual. \$3.00

1951 MRS. JOHN M. ALDRICH INTRODUCTIONS

BEN BOLT — Good size blooms of dark red, but bright. Cup is wide, of orange yellow, with midrib of same color extending to tips of petals and sepals. Scape grows to 3½' About 18 buds to the scape. Fair increaser. Mid-season. Stays open evenings. \$5.00

FAIR ALICE — Light lemon yellow, 5" blooms, almost flat, with crepey texture, very good substance. Fades some but evenly, so that it is still attractive in late afternoon and evening. Profuse foliage about 2½', scape 42", 15 to 20 buds to a scape. Starts blooming in late June. \$3.00

MEDITATION — Bloom 6", and good substance. Color tannish pink, with dark maroon eye zone. Flower has a crepey texture, ruffled on edges. Scapes are near 50", foliage about 30". Flowers in early June. \$7.50

RUDBECKIA — Early mid-season. Medium light yellow with dark maroon eye zone. 5½" blooms Rapid increaser. 2½' \$3.00

PREVIOUS INTRODUCTIONS STILL AVAILABLE

AMRITA (Burtner) — Large pastel bi-color, yellow sepals, petals overflushed with salmon pink. Large open blooms 5½" Best in semi-shade. Early \$2.50

CASANDRA (Aldrich) — Pale orange veined red, giving a salmon pink effect. Flowers about 6" across, with slightly twisted petals, slightly ruffled edges. Throat greenish yellow, changing to light orange as it comes up petals and sepals in a star like form. Scape is 4½' tall; foliage vigorous. Mid-season. \$2.00

CORAL GLOW (Burtner) — Beautiful near scarlet of fine form and substance. Holds color well 5" bloom. Early mid-season. \$2.00

DELRAY (Burtner)	— Brilliant velvety ruby red, 6" bloom of unique shape. Medium height. Mid-season.	\$5.00
FAIRFAX (Burtner)	— Beautiful bright clear red 5½" bloom, 36" tall, attractively formed. Early mid-season.	\$4.00
INDIANA (Burtner)	— Bi-color with petals brownish red and sepals yellow, sprinkled ruby. Broad yellow throat. Heavy substance. Petals twirled and pinched. 6" bloom. Early mid-season.	\$1.50
IWO JIMA (Burtner)	— Orange rufous with golden yellow throat. Blooms slightly recurved. Well branched and strong grower. Good propagator. 5" bloom.	
	Mid-season	\$4.00
JOY (Burtner)	— Martius yellow self with slight touch of green in throat. Wide overlapping petals slightly twirled. Both sepals and petals have crinkled edges. An outstanding yellow which does not fade. Late mid-season.	\$4.00
KING ARTHUR (Burtner)	— Deep solid golden orange with ruffled, slightly recurved petals, pinched at tips. 6" bloom. Mid-season.	\$4.00
LADDIE (Burtner)	— Orange red 5" blooms with yellow throat. Opens several blooms at one time on single stalk. Exceptionally well branched and rapid increaser. Mid-season	\$2.00
LEYTE (Burtner)	— Deep huby red, darker near broad star shaped yellow throat. Very attractive form and color. Recurved type. 5½" bloom. Early mid-season	\$4.00
LUZON (Burtner)	— Cardinal red with darker eye zone and yellow throat. 5" bloom. Mid-season.	\$2.00
PASTELORA (Aldrich)	— Bloom 4½" - a pastel orange of trumpet form. 30" scape with foliage about 20" high. Mid-season.	\$2.00
SHENVALEE (Burtner)	— Fine light red of uniform color, orange throat. Excellent branching. 4½ bloom. Does better in semi-shade. Mid-season	\$3.00
